These risk factors may cause you to lose some or all of your investment:</b></p>	<p>Refer to paragraph 10 of the Singapore Prospectus for more information on the risks of the product.</p>
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to market risks as the Fund invests in Equities and/or Bonds.</b> The prices of securities may decline in response to certain events, including but not limited to those directly affecting the companies whose securities are owned by the</li> </ul>	

<p>Fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency fluctuations. The market values of bonds generally vary inversely with the level of interest rates – when interest rates rise, their values will tend to decline and vice versa.</p> <ul style="list-style-type: none"> <li>• <b>You are exposed to market risks in emerging markets.</b></li> </ul> <p>The Fund faces a number of investment risks greater than those normally associated with investments in international securities. In particular, it may encounter settlement systems that are less well organised than those of developed markets. There may be risks that settlement may be delayed and that cash or securities belonging to the Fund may be in jeopardy because of failures of or defects in the systems or because of defects in the administrative operations of the counter-parties.</p>			
<b>Liquidity Risks</b>			
<ul style="list-style-type: none"> <li>• <b>The Fund is not listed and Shares can only be redeemed on each Valuation Date.</b></li> </ul> <p>There is no secondary market for the Fund. Redemption requests may be made to the Management Company through the transfer agent or appointed distributors in Singapore.</p>			
<b>Product-Specific Risks</b>			
<ul style="list-style-type: none"> <li>• <b>You are exposed to derivatives risks</b></li> </ul> <p>Derivatives may expose the Fund to certain additional risks relative to traditional securities such as credit risks of the counterparty, imperfect correlation between derivatives prices of related assets, rates or indices, potential loss of more money than the actual cost of the investment, potential for leverage, increased volatility and reduced liquidity and risk of mispricing or improper valuation.</p> <ul style="list-style-type: none"> <li>• <b>You are exposed to contingent convertible bonds risks</b></li> </ul> <p>The Fund may invest in contingent convertible bonds. Under the terms of such bonds, certain triggering events including events under the control of the management of the contingent convertible bond's issuer, could cause the permanent write-down to zero of principal investment and/or accrued interest, or a conversion to equity.</p> <ul style="list-style-type: none"> <li>• <b>You are exposed to China Interbank Bond Market risk and Bond Connect risks</b></li> </ul> <p>Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The Fund investing in such market is therefore subject to liquidity and volatility risks.</p> <ul style="list-style-type: none"> <li>• <b>You are exposed to mortgage and asset-backed securities risks</b></li> </ul> <p>Mortgage-related securities, such as ABS/MBS, include debt obligations that represent interests in pools of mortgages or other income-bearing assets, such as consumer loans or receivables. Such securities often involve risks that are different from or more acute than the risks associated with investing in other types of debt securities. MBS and ABS securities are subject to changes in the payment patterns of borrowers of the underlying debt which can result in prepayment and extension risks.</p>			
<b>FEES AND CHARGES</b>			
<p><b>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</b></p> <p><u>Payable directly by you</u></p> <ul style="list-style-type: none"> <li>• You will need to pay the following fees and charges as a percentage of your gross investment sum:</li> </ul> <table border="1" data-bbox="247 1646 1110 1713"> <tr> <td data-bbox="247 1646 477 1713">Sales charge<sup>2</sup></td> <td data-bbox="477 1646 1110 1713">o Maximum of 5.25%</td> </tr> </table>	Sales charge <sup>2</sup>	o Maximum of 5.25%	<p>Refer to paragraph (c) of Appendix 5 of the Singapore Prospectus for more information on fees and charges.</p>
