## Annual Report 2025

For the year ended 30 June 2025

ARSN 645 681 929

## A Message to Unitholders

For the year ended 30 June 2025

Global bond markets experienced a period of shifting dynamics, marked by evolving monetary policy, moderating inflation, and geopolitical uncertainty. Despite intermittent volatility, most major fixed income sectors delivered positive returns, supported by central bank easing and improving inflation trends.

In the United States, the bond market posted solid gains, particularly in the second half of 2024, as the Federal Reserve (Fed) kicked off its rate cutting cycle in September 2024 with a 50 basis points (bps) cut, which was followed by two further 25 bps cuts. The Bloomberg U.S. Aggregate Index rose 6.1% over the period, with all major US fixed income sectors in positive territory. The yield curve, which had been inverted for an extended period, normalized as the Fed began easing. Two- and five-year Treasury yields decreased 104 bps and 58 bps, respectively. The 10-year Treasury yield ended the period at 4.23%, down 17 bps from June 2024. US inflation eased. The Consumer Price Index (CPI) rose at an annualized 2.40% in May 2025, compared to 3.0% in June 2024. Core inflation, which excludes food and energy, fell to 2.8% in May 2025 from 3.3% in June 2024.

European bond markets were volatile. Early gains were driven by rate cuts from the European Central Bank (ECB), which lowered its benchmark deposit rate four times in 2024 and then a further four cuts in 2025 so far as inflation approached its 2% target. However, political instability in Germany and France, coupled with uncertainty surrounding US trade policy under President Trump, weighed on sentiment. Nevertheless, the Bloomberg Euro Aggregate Bond Index returned 14.7%. Government bond yields were mixed across the eurozone. Yields for Germany's 10-year bund, the eurozone's benchmark, rose 11 basis points (bps) to 2.61%. Meanwhile, Italy's 10-year bond yield fell 59 bps to 3.48%. Currency appreciation against the US dollar provided some support, with the euro and pound gaining 9.5% and 8.4%, respectively.

Within emerging markets (EM), while the fourth quarter of 2024 saw a sharp pullback – particularly in local-currency bonds – due to US dollar strength and tariff concerns weighing on sentiment, markets rebounded in 2025. EM bonds posted broad-based gains across both local- and hard-currency segments over the year. Local-currency sovereign debt, as measured by the J.P. Morgan GBI-EM Global Diversified Index, returned 13.8% in US dollar terms, while hard-currency sovereign debt, represented by the J.P. Morgan EMBI Global Index, gained 9.5%. Returns were driven by supportive central bank actions and currency appreciation against the US dollar, which benefited local-currency debt.

Looking ahead, tight market valuations remain a concern, but we remain mindful that this only reflects strong corporate fundamentals and positive technicals. Exposure to investment-grade and high-yield corporates continues to be actively managed through high-conviction cash bonds and credit default swaps.

The fund maintains exposure to a diverse basket of spread sectors. On a relative basis, the team favours agency mortgage-backed securities relative to investment-grade corporates as the sector has offered similar yields with less credit risk. Additionally, there is a continued constructive view on emerging market debt – EM economies remain relatively healthy with the ability to service debt thanks to continued reserves accumulation. Inflation has moderated substantially from 2022 peaks and is generally on a downward trend amid continued restrictive monetary policy stances.

At the same time, a modest overweight is held in peripheral spreads such as Greece. We expect peripheral sovereigns to hold up well in risk-off environments given improving fundamentals and a supportive macro backdrop through a more integrated Europe.

Thank you for your continued support, and we look forward to reporting to you again next year.

**Past results are not a guarantee of future results.**

These financial statements cover Capital Group Global Total Return Bond Fund (AU) as an individual entity.

The Responsible Entity of Capital Group Global Total Return Bond Fund (AU) is Capital Group Investment Management Limited (ABN 73 164 174 501). The Responsible Entity's registered office is Suite 4201, Level 42, Gateway, 1 Macquarie Place, Sydney NSW 2000 Australia.

## Directors' report

The directors of Capital Group Investment Management Limited, the Responsible Entity of Capital Group Global Total Return Bond Fund (AU), present their report together with the financial statements of Capital Group Global Total Return Bond Fund (AU) (the "Fund"), for the year ended 30 June 2025.

### Principal Activities

The Fund is a registered managed investment scheme domiciled in Australia.

The Fund invests worldwide primarily in investment grade bonds and high yield bonds, as well other fixed income securities such as mortgage and asset-backed securities through its investment in Capital Group Global Total Return Bond Fund (LUX).

The investment objective of the Fund is to maximise total return over the long term through its investment in Capital Group Global Total Return Bond Fund (LUX).

Capital International, Inc. is the Investment Manager of the Fund.

The Fund did not have any employees during the year (2024: Nil).

There were no significant changes in the nature of the Fund's activities during the year.

### Directors

The following persons held office as directors of Capital Group Investment Management Limited during the year or since the end of the year and up to the date of this report:

Jorden Brown

Ai Chun Chua

Jeremy Lim

Ante Nimac

Matthew Reynolds

Angela Roberts

Belinda Tallis

The Responsible Entity has a Compliance Committee consisting of the Head of Compliance, Asia Pacific and two independent members. This committee's role is to oversee the compliance requirements of the Fund operated by the Responsible Entity. This Committee met four times during the financial year under review.

### Review and results of operations

The performance of the Fund, as represented by the results of its operations, was as follows:

|   | <b>Year ended</b>       |                 |
|---|-------------------------|-----------------|
|   | <b>30 June<br/>2025</b> | 30 June<br>2024 |
| Operating profit/(loss) before finance costs attributable to unitholders (\$) | <u>820,172</u>          | <u>106,395</u>  |
| Distributions paid and payable (\$)   | <u>505,602</u>          | <u>443,117</u>  |
| Distributions (cents per unit)  | <u>4.3638</u>           | <u>4.0324</u>   |

### Significant changes in state of affairs

There were no significant changes in the state of affairs of the Fund that occurred during the year.

## **Directors' report (continued)**

### **Matters subsequent to the end of the financial year**

No matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect:

- the operations of the Fund in future financial years, or
- the results of those operations in future financial years, or
- the state of affairs of the Fund in future financial years.

### **Likely developments and expected results of operations**

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund and in accordance with the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

### **Indemnity and insurance of officers and auditors**

No insurance premiums were paid for out of the assets of the Fund in regards to insurance cover provided to either the officers of Capital Group Investment Management Limited or the auditors of the Fund. So long as the officers of Capital Group Investment Management Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund. The auditors of the Fund are in no way indemnified out of the assets of the Fund.

### **Fees paid to and interests held in the Fund by the Responsible Entity or its associates**

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in Note 13 of the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 13 of the financial statements.

### **Interests in the Fund**

The movement in units on issue in the Fund during the year is disclosed in Note 8 to the financial statements.

The value of the Fund's assets and liabilities is disclosed on the statement of financial position and derived using the basis set out in Note 2 to the financial statements.

### **Environmental regulation**

The operations of the Fund are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

### **Rounding of amounts to the nearest dollar**

Amounts in the Directors' report have been rounded to the nearest dollar in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

## **Directors' report (continued)**

### **Auditor's independence declaration**

A copy of the auditor's independence declaration as required under Section 307C of the *Corporations Act 2001* is set out on page 4.

This report is made in accordance with a resolution of the directors.

1 Macquarie Place  
Sydney NSW 2000

Dear Directors

Auditor's Independence Declaration to Capital Group Global Total Return Bond Fund (AU)

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Capital Group Investment Management Limited, as responsible entity for Capital Group Global Total Return Bond Fund (AU).

As lead audit partner for the audit of the financial report of Capital Group Global Total Return Bond Fund (AU) for the financial year ended 30 June 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- The auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- Any applicable code of professional conduct in relation to the audit.

Yours faithfully

The investment objective of the Fund is to maximise total return over the long term through its investment in Capital Group Total Return Bond Fund (LUX).

The financial statements were authorised for issue by the directors on 26 August 2025. The directors of the Responsible Entity have the power to amend and reissue the financial statements after they have been issued.

## 2 Summary of material accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

### (a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Fund is a for-profit unit trust for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and net assets attributable to unitholders. The amount expected to be recovered or settled within 12 months after the end of each reporting period cannot be reliably determined.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at statement of financial position date.

In the case of net assets attributable to unitholders, the units are redeemed on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

#### *Compliance with IFRS accounting standards*

The financial statements of the Fund also comply with IFRS accounting standards as issued by the International Accounting Standards Board.

#### *New and amended standards adopted by the Fund*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2024 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

#### *New standards, amendments and interpretations effective after 1 July 2025 and have not been early adopted*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2025, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

## **2 Summary of material accounting policies (continued)**

### **(b) Financial instruments**

#### *(i) Classification*

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Responsible Entity to evaluate the information about these financial instruments primarily on a fair value basis, with the supporting use of other related financial information.

For equity securities, the contractual cash flows held by the Fund are not solely principal and interest. Consequently, these investments are measured at fair value through profit or loss.

The Fund invests in Capital Group Global Total Return Bond Fund (LUX) and the contractual cash flows are not solely principal and interest. Consequently, these investments are measured at fair value through profit or loss.

Financial assets and financial liabilities at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Responsible Entity to evaluate the information about these financial instruments on a fair value basis together with other related financial information.

The information on the fair value basis is provided internally to the Fund's key management personnel.

#### *(ii) Recognition / derecognition*

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments has expired or has been transferred and the Fund has transferred substantially all risks and rewards of ownership.

#### *(iii) Measurement*

At initial recognition, the Fund measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gains/(losses) on financial instruments at fair value through profit or loss in the period in which they arise. This also includes dividend expense on short sales of securities, which have been classified at fair value through profit or loss.

For further details on how the fair values of financial instruments are determined please see Note 4 to the financial statements.

### **(c) Net assets attributable to unitholders**

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders. The units are classified as financial liabilities as the Fund is required to distribute its distributable income, in accordance with the Fund's Constitution.

The units can be put back to the Fund at any time for cash based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at statement of financial position date if the holder exercises the right to put the unit back to the Fund.

### **(d) Cash and cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

## **2 Summary of material accounting policies (continued)**

### **(e) Investment income**

Interest income from financial assets at amortised cost, including cash and cash equivalents, is recognised on a time-proportionate basis using the effective interest method.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Distribution income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within distribution income when the Fund's right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) of the financial statements.

### **(f) Expenses**

All expenses, including management fees, are recognised in the statement of comprehensive income on an accruals basis.

### **(g) Income tax**

Under current legislation, the Fund is not subject to income tax as unitholders are presently entitled to the income of the Fund.

The benefits of imputation credits and foreign tax paid are passed on to unitholders.

### **(h) Distributions**

Distributions are payable as set out in the Fund's Product Disclosure Statement. Such distributions are determined by the Responsible Entity of the Fund. Distributable income includes capital gains arising from the disposal of financial assets and liabilities held for trading.

Unrealised gains and losses on financial assets and liabilities held for trading that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

### **(i) Increase/decrease in net assets attributable to unitholders**

Income not distributed is included in net assets attributable to unitholders. Movements in net assets attributable to unitholders are recognised in the statement of comprehensive income as finance costs.

### **(j) Foreign currency translation**

#### *(i) Functional and presentation currency*

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

#### *(ii) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the statement of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

## **2 Summary of material accounting policies (continued)**

### **(k) Due from/to brokers**

Amounts due from/to brokers represent receivable for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year and may also include receivable/payable to unlisted investment schemes. The due from brokers balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund measures the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

### **(l) Receivables and accrued income**

Receivables may include amounts for interest and trust distributions. Trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in Note 2(e) above. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund measures the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund measures the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

### **(m) Payables**

Payables include liabilities and accrued expenses owed by the Fund which were unpaid as at the end of the reporting period. As the Fund has a contractual obligation to distribute its distributable income, a separate distribution payable is recognised in the statement of financial position as at the end of each reporting period.

### **(n) Applications and redemptions**

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

Unit redemption prices are determined by reference to the net assets of the Fund divided by the number of units on issue.

### **(o) Goods and Services Tax (GST)**

The GST incurred on the costs of various services provided to the Fund by third parties such as custodial services and investment management fees have been passed onto the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of 55% or 75%; hence investment management fees, custodial fees and other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

## **2 Summary of material accounting policies (continued)**

### **(p) Use of estimates**

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Fund's investment in unlisted investment schemes are valued using the official daily net asset value published by the unlisted investment scheme.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the short-term nature of these financial instruments.

For more information on how fair value is calculated please see Note 4 of the financial statements.

### **(q) Rounding of amounts**

The Fund is an entity of the kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, relating to the "rounding off" amounts in the financial statements. Amounts in the financial statements have been rounded off to the nearest thousand dollars, unless otherwise indicated.

## **3 Financial risk management**

The Fund's activities expose it to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and seeks to maximise the returns derived for the level of risk to which the Fund is exposed. Financial risk management is carried out by the investment management department of the Responsible Entity under policies approved by the Board of Directors of the Responsible Entity (the "Board").

The Fund uses different methods to measure different types of risks to which the Fund is exposed. Rating analysis and maturity analysis are used for credit risk and liquidity risk respectively. Sensitivity analysis is used for price risk, foreign exchange risk and interest rate risk. The Fund considers that regressing the Fund's returns against chosen benchmarks provides a reasonable and objective assessment of the Fund's risk determinants. The results of the regression analysis are based on historical correlations between the Fund's returns and chosen benchmarks and may not be reflective of future market price movements and market conditions which may bear no relation to historical patterns.

Market disruptions associated with current geopolitical events have had a global impact, and uncertainty exists as to their implications. Such disruptions can adversely affect assets of the Fund and thus performance of the Fund. Management is continuing to monitor these developments and evaluate their impact on the Fund.

### **(a) Market risk**

#### *(i) Price risk*

The Fund is exposed to securities price risk. This arises from investments held by the Fund for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk and reflected in the price risk analysis below. Paragraph (ii) 'Foreign exchange risk' below sets out how this component of price risk is managed and measured. Investments are classified in the statement of financial position as at fair value through profit or loss. All securities investments present a risk of loss of capital. The risk resulting from financial instruments is determined from an examination of the potential variation in the fair value of the financial instruments as at 30 June 2025 and 30 June 2024.

The Responsible Entity mitigates price risk through diversification and a careful selection of securities and other financial instruments specified within the Fund's Investment Guidelines. Compliance with the Fund's Product Disclosure Statement and Investment Guidelines are monitored daily, with any breaches recorded on a breach register and reported to the Compliance Committee on a quarterly basis.

### 3 Financial risk management (continued)

**(a) Market risk (continued)**

*(i) Price risk (continued)*

The fair value of unlisted investment schemes exposed to price risk were as follows:

|                             | As at                 |                       |
|-----------------------------|-----------------------|-----------------------|
|                             | 30 June<br>2025<br>\$ | 30 June<br>2024<br>\$ |
| Unlisted investment schemes | 9,533,209             | 8,712,329             |
| <b>Net total</b>            | <b>9,533,209</b>      | <b>8,712,329</b>      |

The table presented in Note 3(b) summarises the impact on operating profit attributable to unitholders and liabilities attributable to unitholders from possible changes in market prices that were reasonably based on the risk that the Fund was exposed to at reporting date.

*(ii) Foreign exchange risk*

Foreign exchange risk arises as the value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk not foreign exchange risk.

The Fund invests worldwide primarily in investment grade bonds and high yield bonds, as well other fixed income securities such as mortgage and asset-backed securities through its investment in Capital Group Global Total Return Bond Fund (LUX).

The impact of foreign exchange risk on net assets attributable to unitholders and operating profit is considered immaterial to the Fund.

*(iii) Cash flow and fair value interest rate risk*

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's interest bearing financial assets and financial liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The impact of the interest risk on the net assets attributable to unitholders and operating profit is considered immaterial to the fund.

**(b) Summarised sensitivity analysis**

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders to interest rate risk and price risk.

|                   | <b>Impact on operating profit and net assets attributable to unitholders</b> |           |                 |           |
|-------------------|--|-----------|-----------------|-----------|
|                   | As at  |           |                 |           |
|                   | 30 June<br>2025  |           | 30 June<br>2024 |           |
|                   | +10%   | - 10%     | +10%            | - 10%     |
|                   | \$   | \$        | \$              | \$        |
| <b>Price risk</b> | 953,321  | (953,321) | 871,233         | (871,233) |

### 3 Financial risk management (continued)

#### (c) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due.

The Fund is also exposed to counterparty credit risk on cash and cash equivalents, amounts due from brokers and other receivables. None of these assets are impaired nor past due but not impaired. The exposure to credit risk (or cash and cash equivalents) is low as all counterparties have a rating of A-1+ (as determined by Standard & Poor's) or higher.

Credit risk is managed by ensuring that:

- counterparties with respective credit limits are approved by the Responsible Entity; and
- transactions are undertaken with a number of counterparties.

#### (d) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund is exposed to daily cash redemptions of redeemable units not actively traded on a stock exchange.

The Investment Manager monitors liquidity of the Fund on a daily basis. In order to manage the Fund's overall liquidity, the Fund has the ability to suspend unit pricing and hence suspend redemption requests. The Fund did not suspend redemptions as a result of suspending unit pricing in the current or prior year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period. The amounts in the table are contractual undiscounted cash flows.

| <b>30 June 2025</b>                               | <b>Less than<br/>1 month<br/>\$</b> | <b>1 - 6<br/>months<br/>\$</b> | <b>6 - 12<br/>months<br/>\$</b> | <b>Over 12<br/>months<br/>\$</b> | <b>Total<br/>\$</b> |
|---|-------------------------------------|--------------------------------|---------------------------------|----------------------------------|---------------------|
| Due to brokers - payable for securities purchased | 37,804                              | -                              | -                               | -                                | 37,804              |
| Distribution payable                              | 109,740                             | -                              | -                               | -                                | 109,740             |
| Payables  | 12,437                              | -                              | -                               | -                                | 12,437              |
| Net assets attributable to unitholders            | 9,411,896                           | -                              | -                               | -                                | 9,411,896           |
| <b>Total</b>                                      | <b>9,571,877</b>                    | <b>-</b>                       | <b>-</b>                        | <b>-</b>                         | <b>9,571,877</b>    |
| <b>30 June 2024</b>                               | <b>Less than<br/>1 month<br/>\$</b> | <b>1 - 6<br/>months<br/>\$</b> | <b>6 - 12<br/>months<br/>\$</b> | <b>Over 12<br/>months<br/>\$</b> | <b>Total<br/>\$</b> |
| Due to brokers - payable for securities purchased | 40,281                              | -                              | -                               | -                                | 40,281              |
| Distribution payable                              | 125,110                             | -                              | -                               | -                                | 125,110             |
| Payables  | 11,709                              | -                              | -                               | -                                | 11,709              |
| Net assets attributable to unitholders            | 8,576,370                           | -                              | -                               | -                                | 8,576,370           |
| <b>Total</b>                                      | <b>8,753,470</b>                    | <b>-</b>                       | <b>-</b>                        | <b>-</b>                         | <b>8,753,470</b>    |

### 4 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis.

- Financial assets / liabilities at fair value through profit or loss (FVPL) (see Note 6).

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy;

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2);  
and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

## 4 Fair value measurement (continued)

### i. Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

When the Fund holds financial assets with a quoted market price, the quoted market price used for financial assets is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Fund holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

### ii. Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

Investments in other unlisted investment scheme are recorded at the redemption value per unit as reported by the investment managers of such funds.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

### iii. Fair value of financial instruments not carried at fair value

The carrying value of trade receivables and trade payables are assumed to approximate their fair values. Net assets attributable to unitholders' carrying value differ from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior year.

The carrying value of financial instruments not measured at fair value approximate their fair values.

#### *Recognised fair value measurements*

The tables below set out the Fund's financial assets and financial liabilities (by class) measured at fair value according to the fair value hierarchy.

| <b>30 June 2025</b>                                    | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b> |

| <b>Total</b>   | –              | 8,712,329      | –              | 8,712,329    |

## 4 Fair value measurement (continued)

### iii. Fair value of financial instruments not carried at fair value (continued)

There were no investments classified as Level 1 and Level 3 within the Fund.

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

#### *Transfers between levels*

There were no transfers between the levels of the fair value hierarchy during the year ended 30 June 2025 (30 June 2024: Nil).

## 5 Net gains/(losses) on financial instruments at fair value through profit or loss

Net gains/(losses) recognised in relation to financial assets and financial liabilities at fair value through profit or loss:

|   | Year ended      |                  |
|---|-----------------|------------------|
|   | 30 June<br>2025 | 30 June<br>2024  |
|   | \$              | \$               |
| Net unrealised gains/(losses) on financial instruments at fair value through profit or loss   | 325,622         | (333,629)        |
| Net realised gains/(losses) on financial instruments at fair value through profit or loss     | (11,055)        | (3,093)          |
| <b>Total net gains/(losses) on financial instruments at fair value through profit or loss</b> | <b>314,567</b>  | <b>(336,722)</b> |

## 6 Financial assets at fair value through profit or loss

|  | As at            |                  |
|--|------------------|------------------|
|  | 30 June<br>2025  | 30 June<br>2024  |
|  | Fair value<br>\$ | Fair value<br>\$ |
| <b>Financial assets at fair value through profit or loss</b>       |                  |                  |
| Unlisted investment schemes  | 9,533,209        | 8,712,329        |
| <b>Total financial assets at fair value through profit or loss</b> | <b>9,533,209</b> | <b>8,712,329</b> |
| <b>Comprising:</b>   |                  |                  |
| <b>Unlisted investment schemes</b>                                 |                  |                  |
| Unlisted investment schemes  | 9,533,209        | 8,712,329        |
| <b>Total unlisted investment schemes</b>                           | <b>9,533,209</b> | <b>8,712,329</b> |
| <b>Total financial assets at fair value through profit or loss</b> | <b>9,533,209</b> | <b>8,712,329</b> |

An overview of the risk exposures relating to financial assets at fair value through profit or loss is included in Note 3.

## 7 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, and the relevant activities are directed by means of contractual arrangements. The Fund considers all investments in managed investment schemes (funds) to be structured entities.

The investee fund invests in a number of different financial instruments, which may include equities and debt instruments. The investee fund finances its operations by issuing redeemable units which are puttable at the holder's option and entitles the holder to a proportional stake in the Fund's net assets. The Fund holds redeemable shares in each of the funds it invests in.

The Fund generally has no involvement with the investee fund other than the units it holds as part of its investments. The maximum exposure to loss on investments in structured entities is restricted to the carrying value of the asset as there are no off-balance sheet exposures relating to the investee fund. Once the Fund has disposed of its units in the investee fund, it ceases to be exposed to any risk from that investee fund.

The exposure to investments in related investment funds are summarised in Note 13. These investments are managed in accordance with financial risk management practices as set out in Note 3.

**Capital Group Global Total Return Bond Fund (AU)**  
**Notes to the financial statements (continued)**  
**For the year ended 30 June 2025**

## 8 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

|   | As at                   |                         |                       |                       |
|---|-------------------------|-------------------------|-----------------------|-----------------------|
|   | 30 June<br>2025<br>Unit | 30 June<br>2024<br>Unit | 30 June<br>2025<br>\$ | 30 June<br>2024<br>\$ |
| <b>Net assets attributable to unitholders</b>                 |                         |                         |                       |                       |
| Opening balance   | 11,184,256              | 10,693,234              | 8,576,370             | 8,527,066             |
| Units issued upon reinvestment of distributions               | 675,426                 | 491,022                 | 520,956               | 386,026               |
| Increase/(decrease) in net assets attributable to unitholders | —                       | —                       | 314,570               | (336,722)             |
| <b>Closing balance</b>  | <b>11,859,682</b>       | <b>11,184,256</b>       | <b>9,411,896</b>      | <b>8,576,370</b>      |

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

### Capital risk management

The Fund considers its net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

The Fund's investment strategy remains unchanged and it continues to hold direct investments which provide exposure to liquid assets including listed bonds, bonds traded on regulated markets, other fixed income securities, interest earnings and cash equivalent securities. As such, the Fund will meet any capital requirements from the liquidation of liquid assets, which include cash and cash equivalents.

## 9 Distributions to unitholders

The distributions during the year were as follows:

|                       | Year ended            |        |                       |        |

All audit fees were borne by the Responsible Entity during the years ended 30 June 2025 and 30 June 2024.

## 13 Related party transactions

### Responsible Entity

The Responsible Entity of the Fund is Capital Group Investment Management Limited.

### Key management personnel

Key management personnel includes persons who were directors of Capital Group Investment Management Limited at any time during the financial year as follows:

Jorden Brown

Ai Chun Chua

Jeremy Lim

Ante Nimac

Matthew Reynolds

Angela Roberts

Belinda Tallis

There were no other persons with responsibility for planning, directing and controlling the activities of the Responsible Entity of the Fund, directly or indirectly during the financial year.

### Responsible Entity's fees and other transactions

All related party transactions are conducted on normal commercial terms and conditions. The transactions during the year and amounts payable at year end between the Fund and the Responsible Entity were as follows:

|   | Year ended      |                 |
|---|-----------------|-----------------|
|   | 30 June<br>2025 | 30 June<br>2024 |
|   | \$              | \$              |
| Management fees   | 48,880          | 46,698          |
| Aggregate amounts payable to the Responsible Entity at the reporting date | 12,437          | 11,709          |

The management fee is 0.54% (2024: 0.54%) per annum calculated on the gross asset value of the Fund and expressed as a percentage of the net asset value of the Fund, calculated and accrued daily and paid at the end of the quarter to the Responsible Entity.

Out of the management costs the Responsible Entity will retain its Responsible Entity fee and pay the other fees and costs associated with running the Fund, including investment manager fees, custody fees, audit fees, administration costs, legal costs and borrowing costs.

The Fund's Constitution also allows the Responsible Entity to be reimbursed for abnormal expenses of the Fund, such as the cost of unitholder meetings or defending or bringing legal proceedings.

### Transactions with key management personnel

Key management personnel services are provided by Capital Group Investment Management Limited and are included in the management fees disclosed above. There is no separate charge for these services. There was no compensation paid directly by the Fund to any of the key management personnel.

### Key management personnel unitholdings

At 30 June 2025, no key management personnel held units in the Fund (30 June 2024: Nil).

### Key management personnel remuneration

Key management personnel are paid by the Investment Manager or its associates. Payments made from the Fund do not include any amounts directly attributable to key management personnel remuneration.

### 13 Related party transactions (continued)

#### Key management personnel loan disclosures

The Fund has not made, guaranteed or secured, directly or indirectly, any loans to the key management personnel or their personally related entities at any time during the reporting period.

#### Related party unitholdings

Parties related to the Fund including Capital Group Investment Management Limited, its affiliates or other funds managed by Capital Group Investment Management Limited held units in the Fund as follows:

| 30 June 2025<br>Unitholder          | Number of<br>units held<br>opening<br>Units | Number of<br>units held<br>closing<br>Units | Fair value of<br>investments<br>\$ | Interest<br>held<br>% | Number of<br>units<br>acquired<br>Units | Number of<br>units<br>disposed<br>Units | Distributions<br>paid/payable<br>by the Fund<br>\$ |

#### Other transactions within the Fund

Apart from those details disclosed in this Note, no directors have entered into a material contract with the Fund during the financial year and there were no material contracts involving director's interests existing at year end.

### 14 Events occurring after the reporting period

No significant events have occurred since the end of the reporting date which would impact on the financial position of the Fund disclosed in the statement of financial position as at 30 June 2025 or on the results and cash flows of the Fund for the year ended on that date.

### 15 Contingent assets, liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 30 June 2025 (30 June 2024: Nil).

## Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 5 to 21 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Fund's financial position as at 30 June 2025 and of its performance for the financial year ended on that date.
- (b) there are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements comply with IFRS accounting standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

## Independent Auditor's Report to the Unitholders of Capital Group Global Total Return Bond Fund (AU)

### *Opinion*

We have audited the financial report of Capital Group Global Total Return Bond Fund (AU) (the "Fund") which comprises the statement of financial position as at 30 June 2025, statement of comprehensive income, statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and the directors declaration.

In our opinion, the accompanying financial report of the Fund is in accordance with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Fund's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

### *Basis for Opinion*

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the responsible entity, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Other Information*

- The directors are responsible for the other information. The other information comprises the information included in the Directors' Report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### *Responsibilities of the Directors for the Financial Report*

The directors of the responsible entity are responsible:

- For the preparation of the financial report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Fund in accordance with Australian Accounting Standards; and

- For such internal control as the directors determine is necessary to enable the preparation of the financial report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Fund, and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

### *Auditor's Responsibilities for the Audit of the Financial Report*

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
