

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Capital Group UK - Global Corporate Bond Fund

This fund is a sub-fund of Capital Group Fund. This fund is managed by Capital Group UK Management Company Limited, part of Capital Group.

Class
ISIN

P Acc GBP
GB00BMVG307

Objectives and investment policy

The fund's investment objective is to provide, over the long-term (i.e., a period of over 5 years), a high level of total return (a combination of capital growth and income) by investing primarily in corporate investment grade bonds. A high level of total return is defined as equal to, or in excess of, the average total returns of the funds in the fund's Investment Association sector, the Global Corporate Bond sector.

The fund invests at least 80% of its total net assets in corporate bonds. Investment in bonds will be limited to investment grade bonds. These bonds will be investment grade at the time of purchase. In case of split-rated bonds, the highest credit rating of S&P, Moody's or Fitch will apply. Securities that fail to maintain an investment grade rating from at least one rating agency (or which are no longer deemed investment grade by the Investment Adviser) must be sold within three months, taking into account the interests of shareholders.

In addition to the integration of sustainability risks as part of the Investment Adviser's investment decision making process, the fund aims to manage a carbon footprint (weighted average carbon

intensity) for its investments in corporate issuers that is lower than that of its selected index (the Bloomberg Global Aggregate Corporate Total Return Index hedged to GBP). The weighted average carbon intensity of the portfolio will vary and so will the amount by which it is lower than the weighted average carbon intensity of the selected index.

The Investment Adviser uses third-party carbon footprint data to monitor the portfolio's weighted average carbon intensity, and may adjust exposures to certain companies as necessary. Note that the carbon footprint measurements only apply to holdings and constituents for which carbon data are available.

The Investment Adviser evaluates and applies ESG and norms-based screening to implement exclusions on corporate issuers at the time of purchase with respect to certain sectors. For more sustainability related information, please refer to the fund's 'Consumer-Facing Disclosure' document, which can be found on <https://www.capitalgroup.com/eu/cggcbuk>. For full investment objectives and policy details, please refer to the prospectus. The fund may use

derivatives (i.e. investments of which the prices are based on one or more underlying assets such as bonds) to reduce risk within the fund's portfolio, reduce investment costs and generate additional income.

The fund may invest more than 35% in bonds issued or guaranteed by a member state of the European Economic Area or other countries listed in the fund's prospectus.

Investors can buy and sell shares of the fund on a daily basis. This fund may only be appropriate for long-term investment (i.e. more than 5 years).

This fund is an actively managed UK UCITS. It is not managed in reference to a benchmark, but an index is used as an appropriate comparator for the fund's performance. Any information in relation to an index is provided for the purposes of carbon emission, risk management, context and illustration, as applicable.

Distributions

The shares in this class are accumulating and income will be reinvested.

Risk and reward profile

Historical data, such as is used in calculating this indicator, may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free.

The fund is rated 4 due to the nature of its investments which include the risks listed below. These factors singularly or in combination may impact the value of the fund's investments or expose the fund to losses.

Bonds risk: The market values of bonds generally vary inversely with the level of interest rates - when interest rates rise, their values will tend to decline and vice versa. Funds investing in bonds will be exposed to credit risk. Securities which have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities.

Liquidity risk: Some securities, primarily unlisted

securities and/or those traded in OTC markets, under certain circumstances may not be traded quickly enough in the market to prevent a loss.

Operational risk: This fund may invest in markets where settlement systems are less well organised than those of developed markets. Thus settlement may be delayed and cash or securities belonging to the fund may be in jeopardy.

Counterparty risk: Other financial institutions provide services to the fund such as safekeeping of assets or may serve as a counterparty to financial contracts such as derivatives. There is a risk the counterparty will not meet their obligations.

Sustainability risk: Environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment of the fund.

Derivative instruments risk: While the fund intends to use derivative instruments in a prudent manner and either for hedging and/or efficient portfolio management and/or investment purposes, derivative instruments may expose a fund to additional risks related to the credit risks of the counterparty and potential for increased volatility and reduced liquidity in comparison to the underlying security positions.

Charges

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment. Initial and redemption charges shown are the maximum that might be taken out of your money. In some cases, you might pay less and you should speak to your financial adviser or distributor about this.

The ongoing charge is an estimate based on actual costs. It excludes portfolio transaction costs which do affect returns.

For more information about charges, including potential capping of expenses, please see the 'Charges and Expenses' section in the prospectus and the latest annual or semi-annual reports, available at <http://www.capitalgroup.com/gb/en>

One-off charges taken before or after you invest

Entry charge **None**
Exit charge **None**

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges **0.40%**

Charges taken from the fund under certain specific conditions

Performance fee **None**

Past performance

The fund was launched in 2024 and this share class in 2024.

Returns have been calculated in GBP after all ongoing charges, but not allowing for any initial or redemption charges.

Past performance is not a guide to future returns.

This fund is an actively managed UK UCITS. It is not managed in reference to a benchmark, but an index is used as an appropriate comparator for the fund's performance. Any information in relation to an index is provided for the purposes of monitoring carbon emissions, risk management, context and illustration, as applicable.

Practical information

For the prospectus, latest annual and semi-annual reports, other share classes and latest prices, please visit <http://www.capitalgroup.com/gb/en>

This fund is a sub-fund of Capital Group Fund, an umbrella structure comprising different sub-funds. This document is specific to the fund and share class stated at the beginning of this document. The prospectus, annual and semi-annual reports are prepared for the umbrella. The assets and liabilities of each fund are segregated by law, which means that no individual fund will be liable with its assets for liabilities of another fund within the umbrella fund.

Investors may switch their shares in the fund for shares in the same or another sub-fund within the umbrella, subject to meeting certain requirements as set out in the prospectus. Further details on how to buy and sell shares and other practical information can be found on our website. The details of the up-to-date remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identities of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, are available at <http://www.capitalgroup.com/gb/en>. A paper copy of the remuneration policy will be made available free of charge upon request.

You should also have read the shareholder notices on our website to identify whether there are any impending activities impacting the sub-fund in which you intend to invest.

Contact information

Visit <http://www.capitalgroup.com/gb/en> or call 0370 707 0073 from the UK or, from overseas, +44 203 975 3976 between 8am and 6pm GMT.

Notices

The fund is domiciled in the United Kingdom. Your tax treatment will depend on your taxation status in your country of residence. Please contact your adviser for further details.

Capital Group UK Management Company Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the fund.
