QuantActive Global Infrastructure Fund - AH (EUR)

ISIN: LU0512092221, Base Currency: EUR

A fund of Morgan Stanley Investment Funds

The fund is managed by MSIM Fund Management (Ireland) Limited, part of the Morgan Stanley group.

OBJECTIVES AND INVESTMENT POLICY

Objective

- Long term growth of your investment

Main Investments

- At least 70% of the Fund's investments will be in company shares, including real estate investment trusts.

Investment Policy

- To invest in companies based anywhere in the world, that are involved in the infrastructure business. For example road building and maintenance, operating airports, distributing electricity etc. Where funds and trusts are used the investor may indirectly bear the ongoing management costs of those investments as well.
- The sub-investment manager uses fundamental analysis to identify companies whose securities may offer the best return potential based on a multi-layered filtering process. The sub-investment manager actively integrates sustainability into the investment process by assessing key ESG risks and opportunities in the bottom-up stock selection process by leveraging third party ESG data providers to assess and quantify ESG performance for issuers, informing position sizing; increasing allocation to those companies with more favourable ESG ratings.
- The Fund includes tobacco, adult-entertainment, gambling and weapons-related exclusions and restrictions on companies associated with severe ESG controversies without material remediation and improvement. For further details, please see the Fund prospectus (www.morganstanleyinvestmentfunds.com and at www.morganstanley.com/im).
- The Fund will measure its performance against the Dow Jones Brookfield Global Infrastructure Index (the "Benchmark"). The Fund is actively managed and is not designed to track the Benchmark. Therefore, the management of the Fund is not constrained by the composition of the Benchmark.

Other Information

- The Fund may invest up to 30% of its assets in investments that do not meet the above criteria.
- This is a currency hedged share class. It aims to reduce the impact on your investment of movements in the exchange rate between the fund currency and the share class currency.
- Income will be included in the value of your shares.

Buying and selling shares

- Investors may buy and sell shares on every full banking business day in Luxembourg.

RISK AND REWARD PROFILE

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in the infrastructure industry and the fund's simulated and/or realised return has experienced high rises and falls historically.
- The fund may be impacted by movements in the exchange rates between the fund's currency and the currencies of the fund's investments.

This rating does not take into account other risk factors which should be considered before investing, these include:

- There are additional risks associated with investing in infrastructure.
- The fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the fund to financial loss.
- Sustainability factors can pose risks to investments, for example: impact asset values, increased operational costs.
- There may be an insufficient number of buyers or sellers which may affect the funds ability to buy or sell securities.
- There are increased risks of investing in emerging markets as political, legal and operational systems may be less developed than in developed markets.
- In order to achieve the currency hedging, this share class relies on other parties to fulfil certain contractual obligations, as these parties may fail to do so there is a higher risk to your investment.

CHARGES

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.25%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.51%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

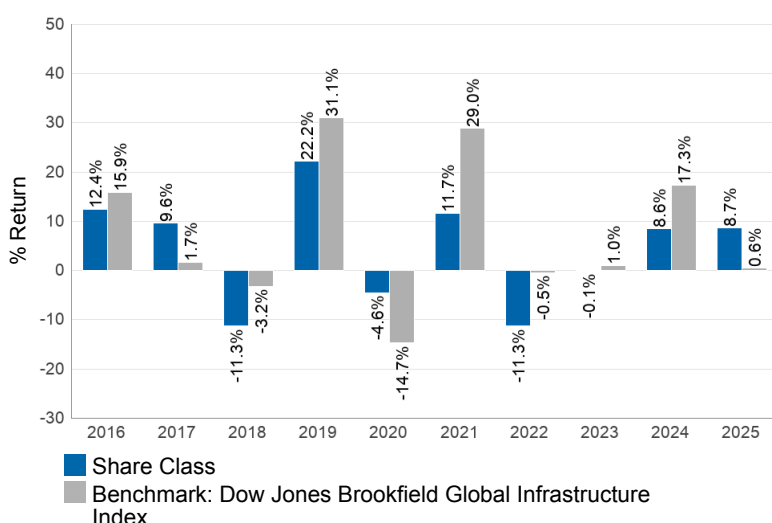

The entry and exit charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges based on the current expense policy of the Fund. It excludes almost all costs of dealing in the Fund's underlying investments. The Company's annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year.

The fund may charge a fee on purchases, sales or switches if it feels other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the fund for the benefit of all shareholders.

For more information about charges, please see the Charges and Expenses section of the prospectus.

PAST PERFORMANCE

- Past performance is only a guide and does not guarantee future performance.
- Past performance has been calculated after the deduction of ongoing charges, as described above, but not the deduction of entry or exit charges.
- The fund was launched in 2010.
- Past performance has been calculated in EUR.
- Effective 6 December 2024, the MS INV Global Infrastructure Fund was renamed the MS INV QuantActive Global Infrastructure Fund. Both an amendment to the investment strategy of the fund and a name change were implemented at this time, reflecting the new sub-investment manager, Fundlogic SAS's active quantitative approach. Therefore the Fund's performance, prior to 6 December 2024, was achieved under a different investment strategy and under circumstances that no longer apply.
- The Fund measures its performance against the Dow Jones Brookfield Global Infrastructure Index.
