Calvert Sustainable Developed Markets Equity Select Fund - AH (EUR)

ISIN: LU2459595752, Base Currency: EUR

A fund of Morgan Stanley Investment Funds

The fund is managed by MSIM Fund Management (Ireland) Limited, part of the Morgan Stanley group.

OBJECTIVES AND INVESTMENT POLICY

Objective

- Long term growth of your investment involving economic activities that address global and environmental or societal challenges, whilst taking into account the long term carbon reduction objectives of the Paris Agreement.
- The Fund is in scope of Article 9 of the European Sustainable Finance Disclosure Regulation.

Main Investments

- At least 70% of the Fund's investments will be in company shares, including depositary receipts.

Investment Policy

- To invest mainly in companies based in developed markets and considered as leaders in the business of addressing global, environmental and societal challenges such as environmental sustainability and resource efficiency, diversity, equity and inclusion, respect for human rights, product responsibility, human capital management, accountable governance and transparent operations
- The Fund will maintain a carbon profile that follows the net zero objectives of the Paris Agreement, as reflected in the appropriate Paris-Aligned benchmark, or in the absence of an approved Paris-Aligned benchmark, the Fund will maintain a substantially lower carbon footprint in the range of 50% than that of the MSCI World Index (the "Benchmark") and taking into account the long-term carbon reduction objectives of the Paris Agreement.
- The Fund will seek to maintain higher levels of diversity at a portfolio level than the Benchmark measured by weighted average number of women at board level. The aforementioned ESG criteria will result in a 20% or more reduction of the investment universe, and the Investment Adviser will aim to ensure that at least 90% of the issuers in the portfolio are assessed against these ESG considerations.
- The Fund includes climate- and weapons-related exclusions alongside other sector/industry restrictions, including gambling, tobacco and companies involved with severe ESG

controversies without material remediation and improvement. For further details, please see the Fund prospectus (www.morganstanleyinvestmentfunds.com and at www.morganstanley.com/im).

Other Information

- The Fund may invest up to 30% of its assets in companies which do not meet the above criteria, provided such securities meet the Investment Adviser's ESG criteria.
- The Fund measures its performance and gender diversity level against the Benchmark and its carbon footprint against either the Benchmark or the appropriate Paris-aligned benchmark. The Fund also references the Benchmark for the purpose of defining the countries it will invest into. The Fund is actively managed and is not designed to track the Benchmark. Therefore, the management of the Fund is not constrained by the composition of the Benchmark.
- This is a currency hedged share class. It aims to reduce the impact on your investment of movements in the exchange rate between the fund currency and the share class currency.
- Income will be included in the value of your shares.

Buying and selling shares

- Investors may buy and sell shares on any Luxembourg business day.

RISK AND REWARD PROFILE

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in company shares and the fund's simulated and/or realised return has experienced high rises and falls historically.

This rating does not take into account other risk factors which should be considered before investing, these include:

- The Fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the Fund to financial loss.
- Sustainability factors can pose risks to investments, for example: impact asset values, increased operational costs.
- There may be an insufficient number of buyers or sellers which may affect the Fund's ability to buy or sell securities.

CHARGES

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.25%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.26%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

The entry and exit charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges based on the current expense policy of the Fund. It excludes almost all costs of dealing in the Fund's underlying investments. The Company's annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year.

The fund may charge a fee on purchases, sales or switches if it feels other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the fund for the benefit of all shareholders.

For more information about charges, please see the Charges and Expenses section of the prospectus.

PAST PERFORMANCE

- Past performance is only a guide and does not guarantee future performance.
- Past performance has been calculated after the deduction of ongoing charges, as described above, but not the deduction of entry or exit charges.
- The fund was launched in 2022.
- Past performance has been calculated in EUR.
- The Fund measures its performance against the MSCI World Index
