OBJECTIVES AND INVESTMENT POLICY

Main Investments

The investment manager also seeks to identify capable management teams able to allocate incremental capital effectively to grow the franchise, maintain the intangible assets and maintain or improve returns on operating capital.
- As part of the investment process, the investment manager assesses relevant factors potentially material to companies' growth potential and their ability to generate high returns on incremental operating capital over the long term. This may include factors relating to investment in intangible assets, capability of management, potential for disruption, current and anticipated industry competition and ESG factors.
- The investment manager also applies certain investment
